
Proven solution of choice for over 20 years, AIM management system was designed from the ground up for MGAs, MGUs, and wholesale brokers.

Over 8,500 users rely on AIM to streamline front end activities including quoting, routine correspondence, binding, policy issuance, and policy management.

A Comprehensive Solution for all your Business Needs

- **Underwriting:** Manage submissions, manage retail broker relationships, and report on what matters most.
- **Accounting:** Offers you the ability to handle all aspects of premium accounting, invoicing, and full financial reports.
 - Track individual producer commissions as well as individual agency commissions.
 - Create and export ACH files for bank transactions.
 - Calculate and automatically report on surplus line tax.
 - Process and closeout month-end in real-time.
 - Email producer statements.
- **Claims:** Create, manage, and pay claims, keep track of the Reserves, assign professionals, prepare checks, and more.

Feature Spotlight: ImageRight® Integration

- Reduce document duplication by automatically transferring documents from AIM to ImageRight.
- Access your entire ImageRight file tree without leaving your screen.
- Email ImageRight documents directly from AIM.
